COMMENTS Maggie, ten going on sixty five, has been
dancing with us since she was 7 years old. She has scoured
her poor Pillings book, since the Christmas her mom and
dad presented it to her at that tender age, for any dances
with "Maggie" in the title. This dance is a meager attempt
to start increasing the number of those dances to make her
job a little easier. I wrote this dance as a 32 bar strathspey
until I noticed my initial bars 09-16 needed to be bars 09-24
to allow for 12, 2 and 2 bar parts. Another electrical
engineer tripping on his addition.
